therese.henke@swedavia.se

The material must be delivered no later than five working days before campaign start.

Technical details:

Number: 31 glass panes.

Description of location:

Glass railing on the mezzanine level above the check-in counters.

Type of sign:

Foil.

Space visible/image area (for original production):

See appendix.

Production dimensions (including construction):

See appendix.

Material (All material must be fire-classified):

The original should be printed mirror-wise on a transparent vinyl. For example on OraJet 3162G Transparent which is a removable campaign vinyl. This is then laminated with a white vinyl. The adhesive (glue) should be on the message side as the stickers are installed from the inside of the glass panes with the messages visible outward. The material should let through light, but does not need to be completely transparent). B1 flammability class as per DIN 4102.

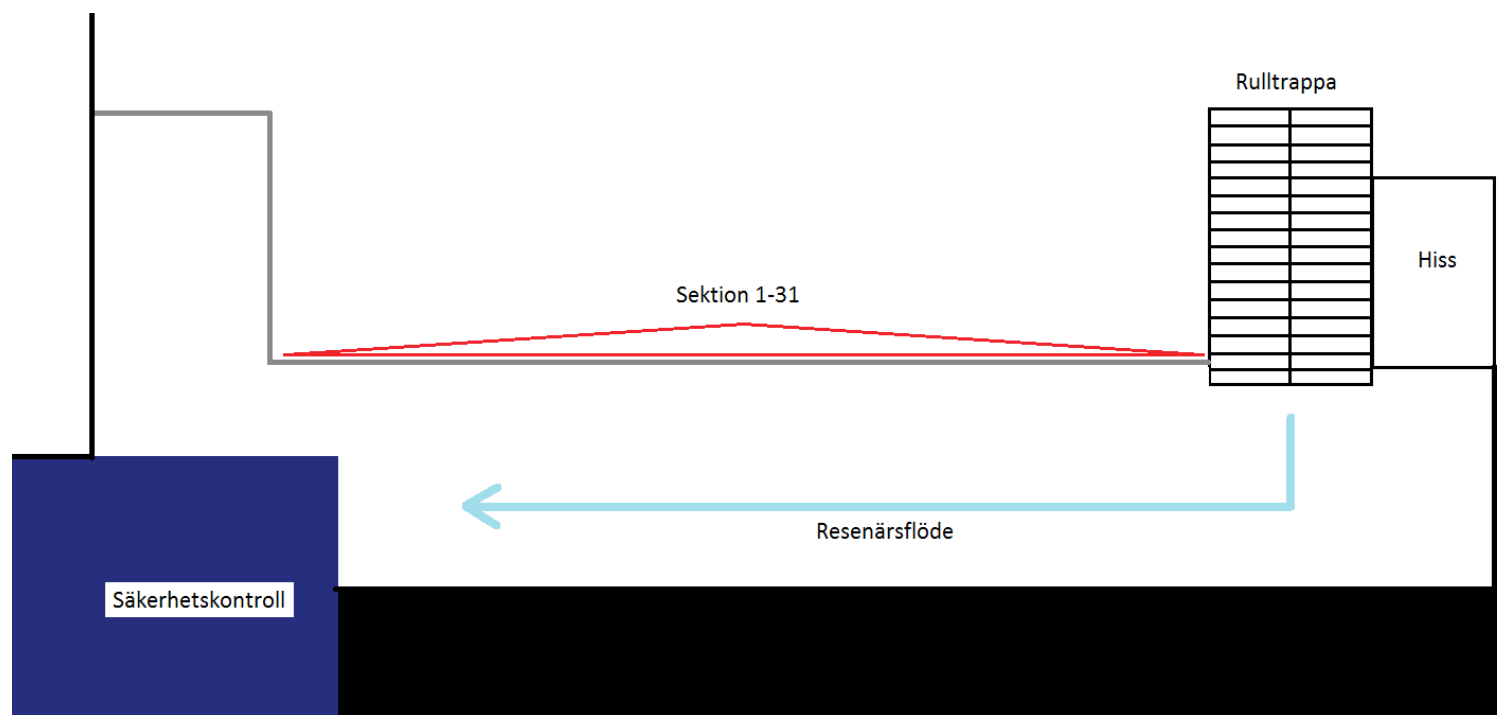

Packaging and marking:

The material must be clearly marked with the advertiser, campaign period, subject and indexnumber, as well as a picture of the subject. The material must also be clearly marked with the airport contact person.

Production:

Since it is complicated to produce this product, production may only be carried out by a printing firm with enough knowledge about these systems. Contact Swedavia for further information.
